

# Adding & Subtracting With Fractions

## (Worksheet 1)

Answers can be found online at the bottom of Exercise 1. To get there either click here: [RadfordMathematics.com](https://www.radfordmathematics.com) or scan the QR Code in the upper right hand corner of the page.

---

### Exercise :

Expressing your final answer as a fraction and simplifying if possible, find each of the following:

1.  $\frac{3}{4} + \frac{1}{6}$

2.  $\frac{2}{3} - \frac{2}{5}$

3.  $\frac{1}{6} + \frac{3}{5}$

4.  $\frac{3}{11} - \frac{5}{33}$

5.  $\frac{3}{7} + \frac{1}{2}$

6.  $\frac{7}{9} - \frac{2}{6}$

7.  $\frac{2}{5} + \frac{3}{7}$

8.  $\frac{3}{4} - \frac{2}{5}$

9.  $\frac{1}{8} + \frac{2}{3}$

10.  $\frac{3}{4} - \frac{5}{8}$

11.  $\frac{3}{8} + \frac{5}{12}$

12.  $\frac{4}{5} - \frac{2}{3}$

13.  $\frac{5}{9} + \frac{1}{3}$

14.  $\frac{3}{4} - \frac{5}{8}$

15.  $\frac{7}{12} + \frac{3}{8}$

16.  $\frac{7}{8} - \frac{5}{6}$
